

# FIT CHECK

DON'T MAKE THESE MISTAKES ON YOUR WEDDING DAY!

A perfect wedding look means the fit has to be impeccable, and when it comes to fit we know what looks best. While some elements of fit come down to personal preference, we've highlighted 5 areas to look for when assessing the fit of your wedding suit:

## 1. JACKET FRONT

A well fitting jacket will hug your torso and body creating a flattering "V" shape. Not sure if it fits? If the top button is noticeably pulling then the jacket is too tight, but if you can fit more than a fist between the button and your body then it is too loose.

GOOD FIT

TOO BIG

TOO SMALL

## 2. JACKET LENGTH

Although jackets are trending shorter, there's an old saying: a jacket is like a good excuse - it should always cover your ass. Specifically, on most men it should be long enough to land at your mid thumb knuckle.

GOOD FIT

TOO LONG

TOO SHORT

## 3. SHOULDERS

The most important part of a well-fitting suit, the shoulder should extend only to the end of your natural shoulder bone. The shoulder should be smooth - if it is too wide or too narrow you'll notice bunching, divots, or ripples on top of the shoulder blades.

GOOD FIT

TOO BIG

TOO SMALL

## 4. SLEEVE LENGTH

It's a matter of preference, but most men agree that your sleeve should hit just above the base of your wrist and show off about 0.25"-0.5" of the cuff of your dress shirt.

GOOD FIT

TOO LONG

TOO SHORT

## 4. PANT LENGTH

Your pant length should extend down to at least 0.5" below the top of your shoe - showing off a slight break.

GOOD FIT

TOO LONG

TOO SHORT
