FAQ

How long does it take to get a suit?

Our turnaround time ranges from 4 weeks to as long as 6–7 weeks during peak season.

How far in advance should I get my wedding party fitted?

To ensure your satisfaction, Eph Apparel requires that all weddings are fitted a minimum of 3 months in advance.

One of my groomsmen lives out of town, can you accommodate him?

No problem. We will coordinate a private fitting with a Personal Style Rep in his city, schedule an appointment at a pop-up location, or walk him through the measurement process on our website.

Why should I get a custom suit instead of something off the rack?

Every Eph Apparel garment is hand cut to your unique measurement profile by a master tailor. You can also add personal touches such as jacket liners, monograms, and pick stitching not generally available in off-the-rack clothing.

What if my order doesn't fit?

Most customers get the fit they want on the first try – but if it doesn't, every order is backed by our Flawless Fit Guarantee which covers up to \$75 of additional tailoring, free remakes, and returns. You're in good hands.

Do you offer discounts for wedding parties?

Every member of a wedding group of four or more will receive a 10% discount on their suit order in addition to our standard product package discounts for maximum savings.
